Mechanical Engineering graduate aspiring for a Design Engineer role, with strong expertise in CAD modeling, product design, and simulation. Skilled in SolidWorks, AutoCAD, and ANSYS, with a focus on developing efficient, reliable, and innovative engineering solutions. Passionate about optimizing designs through analysis and testing, and contributing to advanced product development, manufacturing processes, and sustainable engineering practices within a dynamic and growth-oriented organization.

INTERNSHIP

Virya Industries Pvt, HOSUR

Dec.2025 to Jan.2026

Administrative Management Project Traini

- Designed and optimized mechanical components using AutoCAD and SolidWorks, improving efficiency and reducing errors while ensuring manufacturability.
- Created detailed 2D/3D models, technical drawings, and BOMs in compliance with GD&T and ISO standards for accurate production.
- Collaborated with cross-functional teams to analyze requirements and deliver cost-effective, high-performance design solutions.

Adroid Automation India Pvt, Hosur

Mar 2024 to Mar 2024

- Completed industrial training at Android Automation India Pvt. Ltd., gaining hands-on experience in automation systems and mechanical engineering practices.
- Developed technical knowledge through practical exposure, documentation, and analysis of real-world engineering processes.
- Presented learnings through seminars and prepared detailed reports, demonstrating strong communication and technical reporting skills.

EDUCATION

Er. Perumal Manimekalai College of Engineering, Hosur

2023-2027

Bachelor of Engineering in Mechanical Engineering

PROFESSIONAL SKILLS

Solid Work	MS office	Product Designeer	Team Management
AutoCad	Catia	IPR	Problem Solving

COURSES & CERTIFICATION

- Catia
 - Innovation Ambassador
- TANCAM
AICTE

RECOGNITIONS & ACHIEVEMENTS

- Completed **Innovation Ambassador (IA) Training Certification**, developing skills in innovation management, entrepreneurship, and startup ecosystem development.
- Awarded **Best Research Paper** for outstanding contribution and innovation in engineering research.
- Participated in a **Drone Technology Workshop**, gaining practical exposure to UAV systems and applications.
- Trained junior students in **professional business writing**, improving their technical communication and proposal development skills.
- Mentored **5 teams** for **TN Impact Hackathon 2026**, supporting idea validation, business model development, and pitch preparation.
- Served as **Team Leader for 2 Hackathons**, demonstrating strong leadership, coordination, and problem-solving abilities.
- Recognized for **effective team leadership skills**, including collaboration, decision-making, and project management.
